Leasing

An introduction to
Avtrade's Leasing
services

AVTRADE
THE GLOBAL COMPONENT
SERVICE PROVIDER

AVTRADE

**How do you
manage
without us?**

Our size is our strength.

At Avtrade we believe in strength in numbers. We use our financial power, combined with expertise in valuing components and recommending base kits, to provide a complete Leasing package that really adds up.

We understand that many customers don't want to tie up capital in non-core business such as investment in aircraft and components, and prefer to remove these costly assets from their balance sheets. Entrusting the financing of these to Avtrade, therefore, can greatly improve liquidity and solvency.

MANAGERS

Avtrade have been leasing components to our airline customers for over 25 years. With 3,700+ components currently leased, we believe our size is our strength.

Avtrade's Leasing expertise, and commitment to constantly increasing our component pool, will provide you with a unique partner who can help to unlock a flexible solution to meet your needs, through a wealth of support and analysis.

Our dedicated team use their extensive knowledge and experience to support your Leasing requirements from start to finish.
