ABOUT AAF SPARES

Established in November 2013, AAF Spares LLC is a subsidiary of AAF Spares Ltd, a Joint Venture Business launched in 2011 between leading Global Aviation Partners Avtrade, a specialist in Aircraft Spare Parts Solutions, and Air France Industries KLM Engineering & Maintenance (AFI KLM E&M), a World Class MRO.

The combined services and expertise of aircraft spares specialist Avtrade, world class MRO AFI KLM E&M and AAF Spares LLC are underpinned by the scope and strength of each party's capabilities. In particular, Avtrade's inventory and sales expertise, AFI KLM E&M's global logistics and network of local MRO Facilities and AAF Spares 24/7 dedicated local customer support.

With a wealth of aircraft component knowledge and experience, spares management and optimization capabilities, combined with access to an efficient and strong global logistics network, AAF Spares LLC is able to offer an efficient, effective service and meet all the requirements of airlines operating throughout the Americas.

With its headquarters and vast stock holding located in Miami Florida, AAF Spares LLC is ideally positioned to deliver fast response to operators requirements 24 hours a day, 365 days a year.

Focused on customer expectations and the needs of the aviation market in the Americas, AAF Spares LLC was created to provide maximum spares availability

to Airlines and fleet operators. It offers high quality inventory access as well as an extensive repair management service - **The right component, in the right place, at the right time, at the right price.**

SUPPORTING CUSTOMERS THROUGH AFI KLM E&M SUBSIDIARIES IN THE US

BARFIELD

A FAA and EASA Certified Repair Station part of the Air France Industries KLM Engineering & Maintenance network. Barfield's core businesses include: Adaptive MRO Services, Distribution and Ground Support Test Equipment.

AERO TECHNOLOGIES

Aero Technologies is an entity specialized in Boeing aircraft maintenance. All its capabilities are available on time & material, flat rate or by the hour basis. As part of the AFI KLM E&M network, Aero Technologies combines the agility of a local company with the strength and resources of one of the largest airlines in the world. Its component services include: electro-mechanical, pneumatics, hydraulics, fuel and avionics.

PRECISION ELECTRONICS

With 30 years' experience servicing ATR, Bombardier and Embraer components, Precision Electronics is an entity specialized in regional aircraft maintenance. Precision Electronics develops catered DER and PMA solutions and as part of the AFI KLM E&M network, benefits from the group's purchasing power, innovative technologies and cutting-edge repair processes.
